

EU MATTERS
NIEL's Monthly European Environmental News

Agriculture

[Soil biodiversity reduces nitrogen pollution and improves crops' nutrient uptake](#)

[Wind erosion risk mapped in first ever pan-European assessment](#)

Air Quality

[Plan to cut pollution from combustion plants watered down by the Council](#)

[How much does industrial air pollution cost Europe?](#)

[New infographics on cross-border air pollution](#)

Biodiversity

[More needs to be done to halt global biodiversity loss and meet Aichi targets](#)

[Is Britain's biosecurity being threatened by the risk of an 'invasional meltdown'?](#)

[Protected birds threatened by poisoned prey](#)

[Common European birds have declined more rapidly than rarer species](#)

Climate Change

[Climate change: investing in low-carbon solutions and adaptation](#)

[East Asian air pollution to have bigger global impact under climate change](#)

Energy

[Wind & solar energy and nature conservation - January 2015](#)

[The impacts of large-scale Concentrated Solar Power on the local environment](#)

[Are motorways the best spot for wind turbines?](#)

Freshwater

[Almost half of EU freshwaters suffer from chemical pollution](#)

Marine

[Pollution and overfishing are public's biggest marine concerns](#)

[Deeper seafloor habitats most at risk from bottom trawling](#)

[Coastal zones: achieving sustainable management](#)

Planning

[Declining city populations could boost provision of urban ecosystem services](#)

Transport

[Europe's transport network vulnerable to climate change](#)

[Public subsidies for electric vehicle fleets are important for adoption](#)

[Children are more hyperactive if they live near busy roads](#)

Waste

[Axing of waste proposals and uncertainty about air a colossal strategic blunder](#)

[Eco-design for flat screens should ensure quick dismantling for maximum resource recovery](#)

Other

[Loss of healthy life due to UK noise exposure valued at €1.34 billion](#)

[Health of vulnerable people exposed to noise is under-researched](#)

[Reviewing the multiple impacts of noise pollution](#)

[Preserving quiet areas improves health](#)

[How sounds affect our state of mind](#)
