

Consultation on RCEP topics for future studies

Comments by

Northern Ireland Environment Link

8 July 2010

Northern Ireland Environment Link (NIEL) is the networking and forum body for non-statutory organisations concerned with the environment of Northern Ireland. Its 58 Full Members represent over 90,000 individuals, 262 subsidiary groups, have an annual turnover of £70 million and manage over 314,000 acres of land. Members are involved in environmental issues of all types and at all levels from the local community to the global environment. NIEL brings together a wide range of knowledge, experience and expertise which can be used to help develop policy, practice and implementation across a wide range of environmental fields.

These comments are agreed by Members, but some members may be providing independent comments as well. If you would like to discuss these comments further we would be delighted to do so.

Northern Ireland Environment Link is a Company limited by guarantee No NI034988 and a Charity registered with Inland Revenue No XR19598

Northern Ireland Environment Link has consulted its members and the comments below have been derived from those comments.

From the Northern Ireland perspective we feel that the final two topics; Cost of embedded water and Impacts of low carbon energy on the environment are the most worthy of further work by your Commission at this time. There was also some support for Managing air pollution and the Environmental impact of pharmaceuticals, but these were selected by fewer members.
